WHITE WINS

The endurance run of the Quaker City Motor Club of Philadelphia was won by the White Steamer—in fact, was won twice. In the original contest of January 1st and 2nd, the White was the only car which made a clean score on the road and also was declared by the Technical Committee to be in perfect condition at the finish. For some reason the Contest Committee refused to accept the findings of the Technical Committee as regards two other cars and ordered a "run-off" between the White and these cars.

The supplementary contest, held January 4th, served only to emphasize the superiority of the White. The second examination of the cars made by the Technical Committee produced data of such convincing nature that the White was declared to be the winner of the contest and of the splendid MacDonald & Campbell trophy.

With our entry of but one car we decisively defeated 27 gasoline cars representing 23 of the leading makes. Thus has another important victory been added to the long list of triumphs achieved by the White—the distinctively American car.

TEACHER GIVES UP HER PLACE

Others Want More Pay—Mr. Babbitt Forecasts His Trip Abroad.

A meeting of the Board of Education was held yesterday afternoon. With Superintendent W. H. Babbitt were present Mrs. J. M. Dowsett, J. J. Carden, William Williamson and S. M. Kakanui, commissioners.

Miss Kaahanui's resignation of the school at Kamalo, Molokai, was reported to the meeting. Miss McCarriston was an applicant for the place if she were paid a higher salary than has been allowed there. Simon K. Kalua also applied. The matter went over to await a report from the school agent, Mr. Tollefson.

A complaint signed by Hawaiians and Chinese in considerable numbers against the McGregors at Hanula was read, also a letter from Mrs. McGregor which, referring to her information that such an attack was being made, attributed the movement to spite, etc. The Board at the suggestion of Mr. Babbitt appointed Mr. Carden a committee of one to go to Hanula and investigate the trouble.

Miss Neal, first assistant at Kapaa, requested an increase of salary. Cyril Smith, principal, wrote supporting the request. Mr. Babbitt informed the Board that Mrs. Neal did not have a certificate and when she was engaged it was on a statement by Mr. Smith that if paid \$55 a month she would take the situation permanently. Kapaa school was admitted all round to have had a hard deal with respect to teachers, and Mr. Babbitt testified to Mrs. Neal's efficiency. What was feared was the precedent that compliance would create. Jos. Bettercourt, another Kapaa assistant, also an uncertificated teacher, had been peremptorily denied a request for a raise. It was voted that Mr. Smith be instructed to inform Mrs. Neal that the Board expected her to abide by the original engagement and, should she decline to do so, that he endeavor to find a successor to her among any available persons on Kauai.

Mrs. Fraser, principal of Kainani school, wrote to request that a vote of thanks to Dr. Burnham be passed, for her arduous and faithful services as medical examiner. Mention was made of the doctor's aid to the work of the Palama Settlement. A vote of thanks to Dr. Burnham was accordingly passed without hesitation.

Messrs. Carden and Williamson were appointed to act with Mrs. Dowsett on the teachers' committee.

MR. BABBITT'S TRIP.

Mr. Babbitt read the invitation to him to attend the Conference of State Superintendents of Education in Washington, received from Elmer Ellsworth Brown, U. S. Superintendent of Education. He said the Governor had advised him to attend the meeting, and he intended to leave in the steamer Korea this week. To obtain all possible advantages from the trip, he had informed Governor Frear, his investigations of educational matters should extend considerably over the time and place of the conference. Probably he would be absent until the middle of April. If occasions arose for meetings of the Board in his absence, Mr. Williamson would call and take charge of them.

Some of the lines of inquiry he hoped to pursue were stated by Mr. Babbitt. From a Massachusetts man he expected to learn the most approved method of medical inspection of schools. School savings banks and the school city system would be studied in their best available examples.

Industrial education, as developed highly in Chicago, would be looked up. In New York the subject of the physical welfare of school children was inviting. He would observe the actual working of travelling libraries—often discussed here but never tried, although many requests for libraries were received from country schools.

Some of the best schools in which sewing, cooking, agriculture, etc., were taught would be visited. He would see as many things as he could in the limited time, and would be glad to receive suggestions from members.

THE HIGH SCHOOL.

Before closing Mr. Babbitt said the High School building was pretty well under way. Contractor Chalmers had informed him that he would be ready for the laying of the corner stone about the first of March. At a previous meeting the Board decided to leave that matter in the hands of the High School Alumni Association. President King of the Alumni had the business in hand. Mr. Babbitt trusted that the commissioners would be present at the ceremony.

SOMETHING MYSTERIOUS.

Mrs. Dowsett, on a call for any further business, stated she wished to bring up a matter that was hardly one for the newspapers as yet.

Mr. Babbitt asked if she wished the reporters to withdraw. The reporters saved the commissioner the bother of answering by going out.

Get a copy of Picturesque Honolulu to send to your friend in the States. It is the best souvenir ever issued here. Fifteen cents a copy ready for mailing.

The University Club Ball

will be the social event of the Spring. It will be a formal affair, and the swell social set will attend in a body.

If you haven't a Dress-Suit or Tuxedo, the time to get it is now, when you will need it more than any other time. A man looks so dressy in a good Dress-Suit, and so ordinary in an ordinary one, that we wonder why everyone doesn't wear those tailored by Stein-Bloch experts.

Their suits are the best that can be tailored, and the goods used are pure wool and honest. Then we have Dress-Shirts, Ties, Collars, White Vests, Mufflers, everything accessory to Dress-Suits.

HABERDASHERS

May's : Old : Kona Coffee

We've found a new process for getting the best roasted coffee from the raw bean. The machine that does it is a wonderful new invention. It saves 25 per cent more of the natural aroma than any other coffee roaster. It means that May's famous Old Kona Coffee is 25 per cent better than ever before. That sounds almost too good to be true; yet we now have the roaster in operation and the result is just as we say.

"SATISFACTION IN EVERY CUP."

Come and see the new roaster. It is run by electricity, roasts the coffee beans to an absolutely even brown in ten minutes and removes all chaff in the process. It's the only roaster of the kind in the Islands.

Most important of all—take home a package of the coffee and see how good it is. The price is still the same—25c the pound.

RESERVOIR PIPE LINE AND ITS ACCESSORIES

Marston Campbell, Superintendent of Public Works, will advertise in tomorrow's issue of this paper for cast-iron water chambers, with valves and fittings, for the Nuuanu reservoir pipe line. At the same time bids will be invited for the necessary anchors to secure the pipe in position.

The work has to stand a pressure of 355 pounds to the square inch. It is also designed to take care of the "water hammer" from any sudden shutting off of a valve. All of these devices have to be constructed before the pipe line can be tested. They are not appliances kept in stock, but have to be specially manufactured. Two local firms can do the work.

If any bids from the Coast for completing the Nuuanu dam are to be received, they must come in the Mongolia's mail, due the day before the opening of the bids. The time expires at noon on Thursday.

CONTRACTS AWARDED FOR SCHOOLHOUSES

Bids for building three schoolhouses on Molokai were opened at the Public Works Office yesterday. Mr. Tollefson, as the lowest bidder in each case, gets all the contracts. The figuring was as follows:

Kamalo schoolhouse—De Fries, \$1,060; Trask, \$1,280; Youngs, \$950; Oss, \$940; J. H. Wilson, \$1,198; Evensen, \$1,213; Tollefson, \$798.50.

Kalae schoolhouse—De Fries, \$1,001; Trask, \$1,450; Oss, \$995; Wilson, \$1,340; Evensen, \$1,363; Tollefson, \$894.

Kaunakakai schoolhouse—De Fries, \$1,238; Trask, \$1,470; Oss, \$1,166; Wilson, \$1,440; Evensen, \$1,563; Tollefson, \$1,159.

CHAMBERLAIN'S COUGH REMEDY ABSOLUTELY HARMLESS.

Every mother should know that Chamberlain's Cough Remedy is perfectly safe for children to take, as it contains nothing harmful. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.
